Angled Allen Screws, Chrome Plated

Angled Allen

For Angle Allen Screws, replace "10" with "15" in the part number. Example: 10214 becomes 15214. Angled Allen screws are precision machined, tapered on top and polished, then chrome plated.

Hose Clamps in Stainless Steel

Entire clamp is Stainless Steel including the screw. This product is manufactured in Sweden. Rolled up band edges and smooth inside surface of the clamp spare the hose and insure a high and uniform tightening force. With the flexible screwdriver you can tighten and slacken the clamp from an angle of 90 degrees without slipping.

Description	Part #
1/4 Ratchet Drive holds 1/4" bits.	T - 30100
3/8 Ratchet Drive holds 1/4" bits.	T - 30104
3/8 Ratchet Drive holds 5/16" bits.	T - 30108

Nutserts

Nutserts are of a one-piece design consisting of a nut portion and a sleeve portion. The nutsert is threaded onto the placing tool's mandrel and inserted into a drilled hole. The rotating tool mandrel exerts a pulling action which "breaks" the nut portion from the sleeve, drawing it into the sleeve. notice the sleeve dose not expand. The nut portion fully expands the sleeve, which exerts a full 360° swag fit against the side of the hole. and you now have a permanent load bearing steel captive nut ready for use.

*Non-grip sensitive-one length fits "any" thickness over.030

*Blind-installs from one side of the work

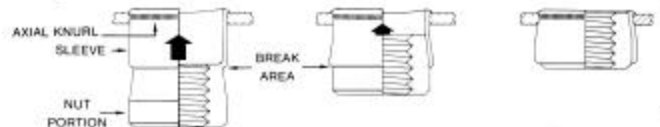

*Will not torque loose

*Use in almost any material; steel, aluminum, fiberglass, castiron, and plastics

*Vibration proof

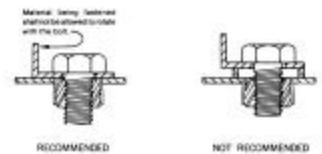

*Nearly flush only .015 protrusion. Installation will not mar the parent material

Here's how the AT Series insert works:
